

STEM club online-Engineering challenge:

Who can build the tallest tower?

Build the tallest tower out of things you can find in your house. Have a look what materials you have in your home, you can make a tower out of **anything** so everyone can get involved!

Take a photo of your tower and measure how long the tower is using a tape measure or ruler. Then send to Miss Ferguson or Miss Dawson.

Some inspiration:

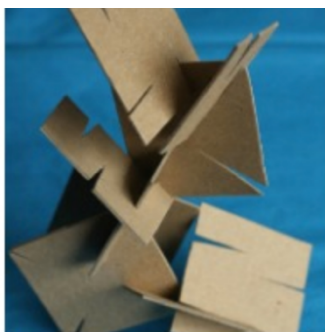

Sweets and cocktail sticks

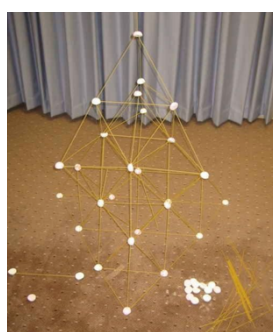

Straws (and elastic bands or cellotape)

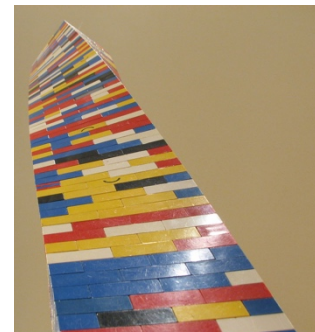

Liquorice

Cardboard

Spaghetti and marshmallows

Lego
